

**UNIVERSITY OF ABUJA
TEACHING HOSPITAL**
GWAGWALADA, ABUJA

**SERVICE
CHARTER**

REVISED 2019

FOREWARD

This is the revised second edition of the service charter of our great institution, University of Abuja Teaching Hospital, Gwagwalada - Abuja, FCT.

As a public health-care Institution that serves our teaming population, it mirrors and showcase the commitment our Government has with her people. Over, the years, the Government have helped the Institution to expand to enable her render more quality services to her citizens. So, improving the quality of care to our clients is now a statutory obligation. That we can achieve by attitudinal change and more determination to excel in our place of duty.

The SERVICOM Golden Rule “states that you should serve other as you would like to be served.”

I hereby, felicitate with the SERVICOM unit for the hard work shown in the course of putting this service charter together as a guiding operation tool in the Hospital.

My sincere desire is to see our dream come through by becoming the number one referral centre in the country through a cream of highly talented, purposeful and well dedicated workforce.

Professor Bissallah Ekele

Chief Medical Director,
University of Abuja Teaching Hospital,
Gwagwalada, Abuja.

BACKGROUND OF THE UNIVERSITY OF ABUJA TEACHING HOSPITAL, GWAGWALADA - ABUJA.

University of Abuja Teaching Hospital (UATH) formerly known as Gwagwalada Specialist Hospital is located in the Gwagwalada Area Council of the Federal Capital Territory (FCT). This 350-bed hospital was conceived by the FCT as a reference hospital for the Federal Capital Territory and its environs. Building started in 1981 and was commissioned by the former President Ibrahim Babangida in 1992. It functioned as a general hospital under FCDA from 1992 - 1993. It was handed over from the FCDA to the Federal Ministry of Health (FMOH) to be ran as a Federal Medical/Specialist Hospital in 1993. The hospital was approved for training of undergraduate medical students of the University of Abuja in 2006, thus its present status as a teaching hospital. This present structure of the hospital represents the first phase of a 500-bed capacity hospital.

This charter is targeted at all our clients/patients who patronize this health facility to whom we, the entire staff pledge our complete service to humanity. It will enable our users know what services are available in the teaching hospital, the quality of services patients are entitled to and the means through which complaints on service failure can be remedied.

OUR VISION

To render qualitative and effective Specialists' health care services through well-motivated staff at an affordable rate.

Our corporate mission is that of a well-equipped, modern tertiary health facility with a dedicated manpower to fulfill the following functions:

MISSION

1. Render efficient and effective health care services to all categories of patients/clients within and outside the Federal Capital Territory.
2. Provide clinical teaching in all medical fields at undergraduate and postgraduate levels.
3. Carry out health-related researches to the benefit of humanity.

SERVICE PROVISION AND DELIVERY

Our services can be accessed through the following entry points.

1. General Outpatient Clinics
2. Accident and Emergency Unit
3. Obstetrics & Gyneacology Emergency Unit
4. Dental/Eye/ENT Clinics
5. Referral Clinics MOPD, POPD, SOPD, ANTENATAL, POSTNATAL, FAMILY PLANNING. PUBLIC HEALTH, PEPFAR

The hospital has specialists in so many fields of Medical practice covering General Surgery, Paediatric Surgery, Urology, Orthopaedics and Trauma, ENT, Ophthalmology, Nephrology, Cardiology, Endocrinology, Gastroenterology, Radiology, Obstetrics and Gynaecology, Plastic Surgery, Dental Surgery, Family Medicine, Pathology, Paediatrics, Haematology, Microbiology and many more.

DEPARTMENT OF ADMINISTRATION

Principal Nursing Officer	-	1

Senior Nursing Officer	-	2
Nursing Officer I	-	2
Nursing Officer II	-	3

Administrative Staff

Chief Confidential Secretary	-	1
Clerical Officer	-	1

Services Rendered by the Department

Physician Anaesthetist

1. Labour Analgesia
2. Central Venous Catheterization
3. Anaesthesia for specialized radiological procedures
4. Provision of Oxygen and related services
5. Monitoring of Oxygen consumption
6. Training of Doctors and other Specialties
7. Training of Doctors from other institutions in Diploma and Fellowship Anaesthesia programme

Regional Anaesthesia

1. Spinal Anaesthesia
2. Combine Spinal Epidural Anaesthesia
3. Peripheral Nerve Blocks

General Anaesthesia for different surgeries depending on specialty

1. Anaesthesia for elective surgery
2. Anaesthesia for Emergency Surgery
3. I.C.U. Admission and Care

4. Monitoring of Oxygen Consumption
5. CVP insertion
6. Pre op Review of elective cases
7. Pre op review of emergency cases
8. Training of Neonatologist on Intubation and use of the Mechanical Ventilator
9. Pain management on the ward
10. CPR (Cardiopulmonary Resuscitation)
11. Sedation for pediatric Patients on the ward
12. Transfer of critically ill patients intra and inter hospital

Nurse Anaesthetists

1. Spinal Anaesthesia
2. General Anaesthesia for elective surgery
3. General Anaesthesia for Emergency Surgery

Recovery Room

1. Recovery and care of patients post anaesthesia and surgery

Intensive Care Unit (ICU)

1. Nursing of patients in the ICU
2. Bed bathe and oral care
3. Admission and transfer to the ward
4. Hourly observation of patients
5. Suctioning of ETT and oropharynx of patients to maintain patent airway Changing of Patients' position
6. Care of patients on ventilator
7. Administration of drugs
8. Blood transfusion
9. NG tube and oral feeding

2. Maintenance of urethral catheter
3. Strict hourly maintenance of fluid input and output
4. Requisition of items and drugs
5. Resuscitation of patients
6. Wound dressing
7. Assist in intubation and extubation of patients
8. Care and management of tracheostomy
9. Random blood sugar monitoring
10. Pain management
11. Ambubagging of patients
12. Administration of oxygen

Average number of patients seen

Theater - 15 daily
ICU - 12 monthly

DEPARTMENT OF SURGERY

Number of Staff

Professors	-	6
Consultants	-	16
Senior Registrars	-	24
Registrars	-	11

Services rendered by the Department

The services rendered by the Surgery department include, running outpatient clinics from Monday all through Friday both morning and afternoon Clinics, Theatre sessions, Mondays through Fridays, Ward rounds both Consultants and residents ward round, emergency calls, residency training and training of medical students, minor procedures, and research.

SERVICES AREAS

The main surgical service areas are:

Surgical Outpatients' Department (SOPD)

Surgical Wards – MSW, FSW, A&E, ICU, SCBU, PMSW, EPU

Casualty

Theatre

The Consultants in surgery run Division/Unit system with outpatient services in the clinics while emergency surgical cases are attended to and where necessary are admitted through the casualty. The emergency paediatric cases are admitted into the emergency paediatric unit for non-trauma paediatric surgical cases while trauma cases are attended to at the casualty before onward admission to paediatric medical ward. Elective and emergency theatre sessions hold in the main theatre while minor emergency operations are done in the casualty theatre. All House Officers and Residents on call sleep in the call rooms.

SOPD

The SOPD handles about 2,063 new cases per year while the total outpatients' turnout per year is about 9,985 (i.e. new and follow-up cases). A wide range of cases, encompassing various surgical specialties, are seen. The surgical outpatients' clinics open from 8:00a.m. to 1.00pm for the morning session and from 1.00pm to 4:00pm for the afternoon clinics, Monday to Friday every week, for services. Emergency surgical services are on 24 hrs. coverage daily.

Surgical Wards

Five wards, with a total capacity of 124 beds, are available to the Surgical Departments as follows:

Male Surgical Ward (MSW)	-	36 beds
Female Surgical Ward (FSW)	-	36 beds
Accident & Emergency Ward - A & E (Orthopaedic Ward)	-	36 beds
Paediatric Medical / Surgical Ward (PMSW)	-	12 beds (12 beds are available here for paediatric surgical cases in addition to 4 beds for day cases).
Special Care Baby Unit (SCBU)	-	4 beds reserved for Paediatric Surgery Division

The average number of admissions in each of the wards is as follows:

Male Surgical Ward	- 942/year
Female Surgical Ward	- 979/year
Accident & Emergency Ward	- 370/year
Paediatric Medical /Surgical Ward	- 493/year
S.C.B.U. (Paediatric Surgery Section)	- 92/year

CASUALTY

The hospital's casualty is open 24 hours every day of the week for adult trauma surgical and medical emergencies. It can accommodate 15 patients at once with rapid transfer to the appropriate wards. It handles about 3,944 cases per year and up to 75% of these are surgical cases. The hospital, being on a major high way (Lokoja – Abuja - Kaduna), receives a lot of road traffic accident victims and most of these present through the casualty. In addition to permanent Casualty Officers, Surgery Residents rotate through the casualty as part of their training requirement. The casualty is equipped with a theatre where some emergency procedures are done.

THEATRE

Four, out of six available suites in the main theatre are dedicated to surgery. These theatre suites are equipped with modern equipment like anaesthetic machines, standard operating tables, diathermy machines, laparoscopy/endoscopic equipment, operating microscope, etc. These theatres are available for both elective and emergency surgeries. The theatre is manned by a full complement of anaesthetists and Peri-operative Nurses. The theatre complex includes rest room for surgeons, recovery rooms for patients, amongst other sections. The hospital intensive care unit (ICU) is adjacent to the main theatre. On the average, number of surgical cases in the main theatre/year is as follows:

Urology	-	176
General Surgery	-	466
Orthopaedics	-	370
Plastic Surgery	-	167
Paediatric	-	247
Neurosurgery	-	95
Vascular surgery	-	2
Total	-	1,523

DEPARTMENTAL ACADEMIC ACTIVITIES

In addition to the teaching in various units in the Department, the formal academic activities of the Department include:

- Weekly discharge summary presentation by all units.
- Weekly Clinical Presentation
- Weekly Journal club meetings.
- Radiology Conference.
- Monthly Mortality Conference.
- Surgical Pathological Conference.

The main resource centers for academic materials are the hospital library and Departmental libraries as well as internet facility which the hospital has acquired (a Vsat for internet services).

Existing Facilities in the Department

There are existing facilities that patients can access in the department

Cost of Services Rendered in the Department

1. Consultation fees - New patients	-	N1,500
Follow-up	-	N750
2. Wound dressing	-	N500
3. Catheterization	-	N1,000
4. Stitches removal	-	N200
5. Biopsy	-	N5,000

Services Rendered by the Department

The department renders services that cuts across the major units in dentistry, which include restorative dentistry, child oral health, oral & maxillofacial surgery, oral diagnosis and preventive dentistry.

1. Restorative dentistry

- a. Simple and complex cavity fillings
- b. Root canal therapy on anterior & posterior teeth
- c. Surgical endodontics
- d. Crowns & bridges
- e. Fabrication of prosthesis(denture)

2. Child Oral health

- a. Simple & complex fillings in children
- b. Pulpotomy
- c. Tooth Extraction in children
- d. Topical fluoridation
- e. Pulpectomy
- f. Treatment of unco-operative children/children with special needs under conscious sedation

3. Oral & maxillofacial surgery

- a. Routine forceps extraction
- b. Surgical extraction of impacted 3rd molar
- c. Incisional biopsy
- d. Excisional biopsy
- e. Reduction & immobilization of fracture
- f. Frenectomy
- g. Cyst enucleation
- h. Reduction of TMJ dislocation
- i. Repair of maxillofacial soft tissue injuries
- j. Major maxillofacial surgeries: maxillectomy, mandibulectomy, management of mid-facial fractures etc.

4. Preventative dentistry

- a. Diagnosis of simple and complex dental problem
- b. Periapical and occlusal radiography
- c. Scaling and polishing
- d. Deep curettage
- e. Root planning

Services rendered by the Department

A. EYE CLINIC

- 1.Triaging of all new patients to the clinic.
- 2.Follow-up of all existing patient and developing conditions amongst existing patients.
- 3.Medical management of Ophthalmological emergencies
- 4.Peadiatric Ophthalmology clinics weekly
- 5.Training of Ophthalmology residents as well as residents from other department e.g family medicine and ENT
- 6.Teaching of medical students

7.Minor Ophthalmic procedures e.g. epitation and foreign body removal

B. EYE WARD

- 1.In patient management of Ophthalmological conditions for adults and Peadiatric patients.
- 2.Medical management of Ophthalmological emergencies
- 3.Admission and Pre-operative preparation of patient for Ophthalmological surgeries
- 4.Post-operative management of patient

C. OPTOMETRY UNIT

- 1.Refracton for patients with suspected refractive errors
- 2.Prescription and dispensing of spectacles
- 3.Low vision screening counseling and dispensing of low vision aids
- 4.Grinding, cutting and mounting of lenses on spectacles.
- 5.Training of Optometry interns
- 6.Training of Opticians

D.EYE THEATRE

- 1.Ophthalmological surgical emergencies
- 2.Ophthalmological elective surgeries
- 3.Administration of intravitreal injection
- 4.Provision and fitting of artificial eyes

E)OUTREACH PROGRAMMES

- 1.Screening of patients for cataract surgeries
- 2.Free Glaucoma screening programmes during the Glaucoma week annually

3. Free cataract surgeries during the outreach programmes.
4. Free Trabeculectomies (Glaucoma surgeries) during the outreach programmes

Daily Routines/Clinics

The Department of Ophthalmology provides comprehensive eye care services to patients. The physicians provide Ophthalmic services as Team. A team consists of the consultants (s) and trainee Ophthalmologists. At present, four teams (A-D) are available. The eye care and educational activities in the department are in the table below.

Oculoplastics, Neuro Ophthalmology, Paediatric Ophthalmology and Vitreoretinal, Cornea and Anterior Segment

Activity	Monday	Tuesday	Wednesday	Thursday
Consultant clinic	0008 - 1600 hrs, Team A	0008-1600 hrs Team B	0008 -1600 Team C	0008 -1600 hrs Team D
Theatre	0008 - 1600 Hrs Team D	0008-1600 hrs, Team A	000 -1600 Hrs Team B	0008 -1600 Hrs Team C
Refraction		0008 -1600 hours daily		
Seminar				
Grand round			0008 -0009 hrs fortnightly all physicians	
Journal review		0008-0009 hrs fortnightly all		

Morbidity & Mortality review					1 st Friday of every month (All cadres of eye care team)
Ward round	Each consultant supervises ward rounds on patients on admission in his team.				
Call duty	A team (consultant and trainees) is on call duty during the period specified in a monthly roster. The team attends to all emergencies and referrals during the period.				
Wet lab	Besides trainees' self-skill acquisition, each consultant supervises residents' wet lab session on theatre day/other specified period.				
Medical students education	During posting in Ophthalmology the medical students acquire knowledge and skills in eye care services through didactic lectures (by consultants), tutorials (by trainees) and teachings in the clinics, ward and theatre.				
Further	The trainees organize weekly tutorial on selected topics.				

Average Number of Patients Seen Monthly

The average number of patients seen is 600

Existing Facilities in the Department

1. Ophthalmic consultations
2. Ophthalmic ocular examinations
3. Refraction and dispensing of spectacles
4. Cutting and mounting of lenses on spectacles
5. Dispensing prescription lenses
6. Minor ophthalmic procedures in the clinic e.g. epilation
7. Ocular foreign body removal and administration of some ocular injections (subconjunctival).
8. Management of patient with Ophthalmic pathologies for adult and peadiatric
9. Ophthalmic surgeries in the eye theatre and emergency procedures.
10. Administration of intravitreal injections in the eye theatre

Cost of Services Rendered in the Department

Consultation	Amount
New patient	N2,000
Old patient	N 1,000

DEPARTMENT OF PHYSIOTHERAPY

Number of Staff

Deputy Directors	-	2
Assistant Director	-	1
Chief Physiotherapist	-	1
Principal physiotherapists	-	3
Senior Physiotherapists	-	3
Intern Physiotherapists	-	16
Occupational therapist	-	1
Other Support Staff	-	2

Services rendered by the Department

1. Physical Therapy for pediatric conditions needing such.
2. Physiotherapy services in orthopedic/trauma/surgical conditions.
3. Medical conditions needing physical therapy.
4. Ante-natal exercise and other conditions in Obstetrics & Gynecology needing physical therapy.
5. Health promotion services including weight control exercises.
6. Staff clinic for staff needing physiotherapy services.
7. Spinal cord injured cases.
8. Oncology/ Immunosuppressive / Palliative cases needing Physio

Daily Routines/Clinics

1. All clinics run 8am-4pm. Mondays-Fridays.
2. Call duties from 4pm-7am. Mondays - Fridays
3. Attending to patients in wards & in I.C.U.
4. Clinical Seminars 9-10 am Tuesday,
Clerking new cases from 10am
5. Weekends attend to call duty and Health Promotion Cases

Average Number of Patients Seen

- | | |
|---|----|
| 1. Orthopedic/ Surgical/Trauma Cases | 75 |
| 2. O&G health promotion/staff clinic | 75 |
| 3. Neurology | 75 |

| 5. Spinal | 30 |
| 6. Oncology/ Immunosuppressive/ Palliative care | 10 |

Existing Facilities in the Department

1. Spacious Gym.
2. SWD.
3. Treadmill.
4. Electrical stimulin machine.
5. Ultrasound therapy.
6. Pediatric gym.

Cost of Services Rendered in the Department

Consultation - N1000.00

Treatment Charges depend on the conditions/diagnosis of patients.

DEPARTMENT OF NATIONAL HEALTH INSURANCE SCHEME (NHIS)

Number of Staff

Staff of NHIS are seconded from other relevant Departments which includes:

- (1) Family Medicine Doctors
- (2) Nursing Department
- (3) Pharmacy Department
- (4) Administrative Department
- (5) Health Information Department
- (6) Accounting Department

Services rendered by the Department

The Unit renders Primary healthcare level services through the NHIS clinic to her primary enrollees. These services include:

1. Outpatient Care
2. Simple surgical procedures and management of some medical conditions admitted in the observation rooms.
3. Renders Secondary Health care that are within the confine of family medicine to both her primary and external clients.
4. Processes referrals from within and outside the facilities/hospital to the appropriate specialist for the further management.
5. Liaise with the HMO to issue authorization code(s) for patients who need secondary and/or tertiary medical/surgical care.?
6. Ensures that NHIS patients on admission in the wards are given the needed attention. This is done through the Unit monitoring team.

7. Preparation and submission of bills accruing from services rendered at secondary/tertiary level.
8. Dispensing of drugs at the pharmacy after payment of 10% of the cost of drugs.
9. Filing of records of our NHIS enrollees through the NHIS Health Information Unit.

Daily Routines/Clinics

The NHIS clinic runs every day including weekends. The clinic attends to undifferentiated medical/surgical conditions.

Average Number of Patients Seen Monthly

The Average number of patients seen is 2,800

Existing Facilities in the Department

Side Laboratory

NHIS Desk Office

Conducive Consulting rooms

Observation/Procedure room

Cash/Payment point

Waiting Hall

Mini Mart.

Cost of Services Rendered in the Department

The cost/charges of all services rendered is in accordance with NHIS tariffs and as stipulated in the NHIS guideline.

DEPARTMENT OF NURSING

Number of Staff

The Department of Nursing is headed by a Deputy Director Nursing Services, who oversees the affairs of the various units/ward and reports to the Chairman, Medical Advisory Committee (C-MAC).

The Department is the most critical and largest work force in the hospital. The Head of Department is ably supported by two Assistant Directors, one in charge of Administration and the other in-charge of Clinical.

Deputy Director Nursing	-	1
Asst. Director Nursing	-	21
Chief Nursing Officers	-	198
ASST. Chief Nursing Officers	-	32
Principal Nursing Officer	-	31
Senior Nursing Officer	-	40
Nursing Officer I	-	82
Nursing Officer II	-	60
Locum Staff	-	23
Total Number	-	488

Services rendered by the Department

a) In-Patient Services

b) Out-Patient Services

In-Patient Services: Patient entry points into the facility are basically from A&E, EPU, Gynae Emergency and directly from various clinics to the wards.

Out-Patient Services are basically clients accessing care in all the clinics.

Daily Routines/Clinics

A. PAEDIATRIC SPECIAL CARE TREATMENT UNIT (PSTC)

1. Daily Health talk
2. Taking of vital signs and entering them into the computer via: Temperature, Pulse, Respiration, weighing of patients, measuring of patient height.
3. Counseling on Infant feeding
4. Tracking of clinic defaulters
5. Switch – twice in a week
6. Daily care givers forum
7. Filling of laboratory investigations forms
8. Daily registering of patients that come to the clinic
9. Supervision of subordinates and support staff.

B. LABOUR WARD OBSTETRIC EMERGENCY

1. Receiving of patients from the point of entry (down stairs, Casualty etc)
2. Triage of clients at the waiting area
3. Out-patients consultation of obstetric clients (28 weeks to 40 weeks) Post-partum mothers within the puerperium.
4. Admission of clients to maternity ward
5. Admission of clients to labour ward
6. Scanning of patient as the case may be.
7. Preparing patient with acute obstetric emergency to the operating theatre
8. Collecting hospital revenue e.g.
9. Consulting fee
10. Scanning fee
11. Admission deposit.

C. MOPD

1. Ensuring consulting rooms are in order and the whole unit is clean and sparkling
2. Create a rapport with clients on arrival
3. Giving of health talks on various topics as it applies to the clinic
4. Taking of vital signs
5. Checking of patients' weight/heights
6. Sorting out of patient folders as there may be more than one clinic at a time
7. Registration of patients folders per clinic
8. Documentation of patient vital signs, health talks and getting the folders arranged for consultation
9. Triage patients
10. Administration of injectable drugs where necessary
11. Phototherapy administration for dermatology patients
12. Removal of stitches from dermatology patients after biopsy procedures
13. Checking of patients' blood sugar level (RBS)
14. Sorting out laboratory investigations results for patients/clients
15. Staying around the consulting room to ensure smooth running of the clinics
16. Supervising the work of the cleaners/Porters
17. General counseling of patients e.g endocrinology/Cardiology patient's (Mental health, pulmonology and neurology cases)
18. Admission of patients into various units and wards.

D. GYNAE EMERGENCY

1. Triage of patients according to severity of condition
2. Checking and recording of vital signs
3. Prompt attention to patients with ruptured ectopic pregnancy, threatened miscarriage, Incomplete abortion
4. Assisting the Gynaecologist in manual vacuum evacuation
5. Collection of laboratory specimen like high vaginal swab, endocervical swab, papsmear, endometrial biopsy
6. Catheterization of patients in preparation for HSG in COMMUNITY MEDICINE unit.
7. Treating patients for ailments occurring in patients with gestational age below 28 weeks
8. Preparing patients and assisting in ultrasound for pregnant mothers
9. Preparing patients for emergency surgery e.g. ruptured ectopic pregnancy
10. Admitting patients for observation in gynae ward
11. Assisting the gynaecologist to examine rape victims for medical report
12. Post procedure complaints are also attended to
13. Referral cases from within the facility and outside are attended to
14. Recording of patients attendance and compilation of statistics
15. Directing patients/patient relatives to their appropriate place.

E. EYE CLINIC

1. General management and security of the clinic
2. Visual acuitting (VA)
3. Taking of vital signs and documentation
4. Maintaining patients register
5. Health education of patients/patients relations
6. Counseling of patients/relatives
7. Eye irrigation, dilation
8. Trimming of eye lashes
9. Supervision of subordinates
10. Maintaining monthly staff nominal role
11. Maintenance of inventory, facilities equipment and instruments.

F. RADIOLOGY UNIT

1. Health education/Instructions to patients and relations
2. Arrangement of patients for the doctors to be attended to
3. Triaging of patients for routine X-Ray and scanning
4. Autoclaving of instruments
5. Preparing patients for special investigations e.g HSG, Barium enema, Barium swallow
6. General subversion of porter/ochija

G. ENT (EAR, NOSE AND THROAT)

1. Health talk/Health Education
2. Weighing of patient
3. Taking vital signs
4. Clinic Session
5. Endoscopy
6. Ear Syringing
7. Ear Popping

8. Dressing
9. Removal of foreign bodies in the ear and nose
10. Pre-operative care and counseling

H. DIALYSIS UNIT

1. Dialysis procedures and management of complications
2. Blood transfusion (Intradialysis)
3. Health education of patients/relative and counseling
4. Vital signs monitoring (Pre, Intra & Post dialysis)
5. Supervision of support staff (Porter, Ochiya/Security Officers)
6. Reparation and assisting doctors during canulation of renal patients
7. Handing over and taking over emergency drugs
8. Daily bed making and damp dusting

I. ANTE-NATAL CLINIC

1. Checking of vital signs of patients
2. Checking of patients height, weight
3. Health talk and Health Education
4. Counseling of HIV positive Mothers
5. Post-natal care
6. Antenatal care
7. Sorting out folders
8. General examination of patients and palpation
9. Counseling of patients for family planning
10. Supervision of subordinate staff.

J. GOPD

1. Triageing
2. Ensure environmental hygiene by supervising the support staff
3. Accounting system of ensuring that clients pay for consultations
4. Health talk/education
5. Counseling both individually and family
6. Guiding and directing clients to various areas of need as they ask
7. Basic health care parameter are taken
8. Share folders to various doctors in the consulting rooms for assessment and evaluations
9. The geriatric patients are seen every Mondays and Wednesdays while the adolescent welfare clinic is every day
10. Ensure smooth referral to other specialized area for care
11. Clients are also monitored for 4hrs - 6hrs and discharged home or taken to ward for further management by the admitting doctor
12. Wound dressings are done under aseptic technique
13. Prescribed injections are administered for out-patient during the shift
14. Ensure proper documentations and statistics of all patients seen in the department

K. ADULT SPECIAL TREATMENT CLINIC

1. Health talks
2. Counseling on all aspects of HIV/AIDS Management
3. Tracking of defaulters and bring them back to care
4. Refilling of A.R.V.S

5. Summarizing patients case notes and presentation
6. Care and support to our clients/patient especially on nutrition, positive living e.t.c
7. Participating in Monday clinical meetings actively.
8. Symptom management and palliative care for patients at home.

L. SOPD

1. Triaging of patient
2. Registration of patients
3. Checking of vital signs, Weighing and height of patient
4. Wound dressing and removal of stitches
5. Changing of Catheter
6. Statistics

M. POPD CLINIC

1. Giving of health talks to patients - A nurse is always stationed in the consulting room to assist the doctors in weighing of patient/taking of patients' vital signs and documentation
2. Sharing of folders to different consulting rooms according to the clinics
3. Triaging
4. Recording of folders according to the clinic of the day into various registers
5. Assisting in haematology clinic
6. Giving of injections
7. Nebulizing of patient
8. Transferring of patients to other clinics/wards

N. PAEDIATRIC HAEMATOLOGY CLINIC

1. Health education and counseling
2. Sorting out of patient
3. Maintaining clinic flow
4. Taking of vital signs, optometric measurements and documentation
5. Management of pain in critically ill patient before admission
6. Giving of immunization
7. Counseling and registration of new patients into the unit
8. Maintain 24 hours clinic line
9. Monitoring of home-based-care of patients before presenting to the hospital
10. Home visit of patient/ parents as the need arises
11. Supervision of the activities of the support group
12. Counseling and education of our patients on admission in EPU and PMSW
13. Needs /assessment of indigent patients
14. Ensuring availability of snacks for patients during clinic days
15. Ensuring team work among the multidisciplinary care givers of our patients
16. Maintaining weekly, monthly and yearly statistics
17. Education and supervision of students on posting
18. Supervision of porters and Ochija on duty.

O. FAMILY PLANNING CLINIC:

1. Checking of vital signs of patients eg. Temperature, Pulse, Respiration, BP Weight
2. Registration of patient
3. Carrying out procedures like IUCD, Impant
4. Insertion and removal of IUCD

5. Giving of injections
6. Daily decontamination of instruments
7. Sorting out cards and filling after procedures
8. Colposcopy and BTL done in theatre
9. Health talks
10. Vasectomy
11. Statistics

DEPARTMENT OF PHARMACEUTICAL SERVICES

Number of Staff

Director:	-	1
Deputy Director:	-	4
Assistant Director:	-	5
Chief Pharmacist:	-	4
Principal Pharmacist:	-	9
Senior Pharmacist:	-	7
Pharmacist 1:	-	3
Intern Pharmacist:	-	25
Pharmacist Technician:	-	2

Services rendered by the Department

The department is divided into sections

1. STORES/PROCUREMENT

- a) Forecasting, selection and quantification of drugs and other pharmaceuticals needed in the hospital
- b) Generation of tender
- c) Distribution of drugs to various outlets like: All pharmacy outlets, Dialysis unit theater Radiology SOPD, Endoscopy unit and Nursing services.
- d) Storage and handling of drugs
- e) Monitoring and evaluations of activities in the units

Daily Routine includes:

- a) Receiving of drugs from suppliers
- b) Routine check on expiring date
- c) Issuing of drugs and consumables
- d) Sorting for FEFO

- e) Cold chain management
- f) Recording and documentation

2. CLINICAL SECTION

- a) Screening and evaluation of prescription
- b) Costing and dispensing of medications
- c) Quality assurance of medicines
- d) Inventory control
- e) Pharmacovigilance
- f) Provision of drug information to both patients and other health professionals
- g) Pharmaceutical care services such as:
 - i. Counseling of patients and care givers on the use of drugs and medical devices
 - ii. Collaborating with other health professional of rational use of drugs
 - iii. Identifying and resolving both potential and actual drug therapy problems
 - iv. Ensuring proper storage of medicines in outlets and in the ward
 - v. Documentation of activities

Daily Routine includes:

- a) Inventory control
- b) Screening of prescriptions, costing, patients counseling and dispensing of medicines
- c) Intervention to prevent potential drug therapy problems

3. PRODUCTION/COMPOUNDING SECTION

Services rendered include:

- a. Production of various products and packaging
- b. Product produced include:
 - i. UATHOL (Hand-Wash)
 - ii. UATHZONE (Bleach)
 - iii. PUATH (Purit)
 - iv. UNITHOL (Dettol)
 - v. UATHZAL (Izal)
 - vi. Methylated Spirit
 - vii. Salicylic acid ointment 5%, 10%, 20%, 40%
 - viii. Zinc oxide ointment
 - ix. Paracetamol syrup
- c. Extemporaneous preparation for paediatrics.
- d. Quality control of all medication supplied to the hospital
- e. Supply of product to the stores

Daily routine:

- a. production of different products and packaging them
- b. Keeping the units clean, washing and sterilizing of bottles used for packaging products.
- c. Following all the necessary processes aseptically to ensure BP standard in all productions.

4. DRUG INFORMATION / PHARMACOVIGILANCE SECTION

Activities carried out in this section include:

- a. Provision of drug information to outlets as well as other health professionals within the hospital

b. Dissemination of drug information to the public and the hospital community

c. Collation of pharmacovigilance filled forms and forward to state pharmacovigilance center

Average Number of Patients Seen

The department as a whole sees an average of 801 patients per day

Existing Facilities in the Department

MONITORING SERVICE PERFORMANCE

The Hospital Management set up a service improvement committee as well as a monitoring unit to ensure strict compliance by staff for the provision of these services to our clients. There are regular meeting of Heads of Departments and units aimed at getting feedback and addressing teething challenges that may affect service delivery.

Incentives aimed at enhancing staff performance such as awards, special recognition and commendations have been introduced to motivate hard working staff. This to encourage professionalism and dedication to duty which leads to improved service delivery.

Service evaluation questionnaires have been developed and are administered periodically to our clients and staff and responses are used to improve services where applicable.
